

Infax's DocketCall® module electronically provides up-to-date case information to all courthouse visitors. DocketCall® improves operational efficiency and safely reduces interaction with court staff by providing real-time information for more independent navigation to greatly improve the court visitor's experience.

The DocketCall® software integrates with any case management system, is court configurable, and filters CMS data to easily display important, up to date information on commercial grade monitors.

Visitors can effortlessly find their names, courtroom, case number, time, and presiding judge in less than 60 seconds, reducing confusion about where to go.

DocketCall® improves operational efficiency, safely reduces crowding in common areas, and disseminates pertinent information to improve the court visitor's experience.

**ABOUT INFAX** · For 50 years, Infax has been helping patrons navigate public spaces. Our systems provide our clients with the capabilities to communicate vital information in real-time. With thousands of displays nationwide, our solutions have become an integral fixture in the judicial, healthcare, and transportation markets and remains committed to being the most reliable and effective solution for information distribution.
